Application Compatibility for Windows Server 2008 R2

- Software applications designed for Windows Server 2008 may not be automatically compatible with Windows Server 2008 R2.
- Microsoft is recommending enterprises test and evaluate software applications for full functionality on Windows Server 2008 R2.
- ISVs, IT Pros and developers should test custom and packaged software applications designed for Windows Server 2008 before deploying on Windows Server 2008 R2.
- Microsoft is working with ISVs to critical apps, such as anti-virus, back-up and management software.
- Microsoft is offering an easy path to WS08R2 certification at no cost to all WS08 certified applications through the completion of the “Works with” 2008 R2 test.
